HOME SCHOOLING MANIPULATIVES INDIVIDUAL SOLUTIONS FOR THE INDIVIDUAL LEARNER

**I hear and I forget. I see and I remember. I do and I understand.**  
-Confucius

TIME FOR FUN was developed out of a love for educational resources, manipulatives, games and toys. With a focus on quality and sound educational value, we have curated some of the best games and educational resources available. TIME FOR FUN is a premium supplier to schools and parents.

With the individual learner in mind, manipulatives have been packaged in considered quantities. We help you choose the right tools for the right purposes – at the right price.

We love what we do and we love what we sell!

Our manipulatives provide easy-to-access ways to help children “visualise mathematics”. The theory of experiential education revolves around the idea that learning is enhanced when children acquire knowledge through active processes and engage them. The effective use of manipulatives can help children connect ideas and integrate their knowledge so that they gain a deep understanding of mathematical concepts. Manipulatives help take abstract ideas and make them into a concrete representation.
