

## About Us

Whether you're finally realising your dream of homeschooling or you've found yourself homeschooling as a result of unprecedented circumstances, we hope to support you in these important early years.

In each box you will find a carefully selected set of workbooks to cover the core subjects, as well as an invaluable parent guide equipping you to get started.

An experienced Foundation Phase teacher has carefully curated the resources saving you hours of time and giving you total peace of mind. All the resources are excellent in quality and locally resourced. Each box contains enough materials for 2 terms / 6 months, making the cost less than R300 a month per child.

With the core areas covered, you can now get on with creating the Homeschool you've always dreamed of.
